Dear 

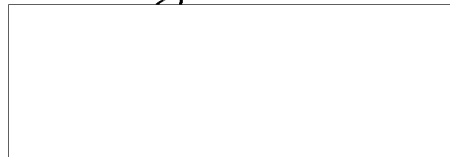

I wish to extend my appreciation and that of the Publications Staff for your valuable contribution during your summer assignment with FBIS. Your previous experience with Publications Staff and your quick adaptability to the Wang computer system made it possible for you to fill our need for an additional staff member. It would have been extremely difficult to meet publication deadlines without your support.

We hope that you have found this assignment beneficial and that you will return to Publications Staff during your Christmas vacation.

Please accept our best wishes for a successful and happy school year.

STAT

Sincerely,

Deputy Director
